Tiffany Lamp Atelier

The **Alexandra Tiffany** lamp design principle focuses on floral motifs from Europe and combining that with Asian influences of soft pastels, asymmetry and decoration. Each newly created Tiffany lamp explores the aesthetic appeal of color patterns on the tiffany glass piece. Just like in nature where every creation is one-of-a kind, so too is each Alexandra Tiffany lamp.

Exquisite design quality *un vrai travail d'artiste*

Hand-rolled authentic Tiffany glass sourced only from Germany, United States & Australia.

Glass is meticulously handpicked from world class Tiffany glass makers. This is especially important for floral designs such as peonies, magnolias, daffodils, and tulips to ensure color consistency. Each lamp only uses the traditional copper-foil technique - handcrafting each glass piece with copper foil before being soldered together.

Alexandra Tiffany is the studio founded by Alexandra Fontaine. The young French Tiffany glass artisan was influenced early by her European heritage. This eventually led to her love and exploration of 18th Century interior and exterior stained glass art.
